

Atish Fulzade

Software developer

As a recent graduate, I'm eager to dive into MERN stack development, specializing in React, MongoDB, Express.js, and Node.js. With a strong JavaScript foundation, I'm dedicated to creating dynamic web applications with responsive, user-friendly interfaces. Committed to continuous learning, I'm ready to contribute to innovative web projects.

Experience

March-2024 to Current

Codealpha

Web developer intern

As a Web Development Intern at Codealpha, I've contributed to three significant projects: a personal portfolio website, an expense tracker, and a social media dashboard. Using HTML, CSS, and JavaScript, I crafted a sleek and responsive portfolio site to showcase skills and experiences. Additionally, I collaborated with teams to develop user-friendly applications like an expense tracker and a social media dashboard, employing modern frameworks like React.js. My internship has not only refined my technical abilities but also enhanced my collaborative skills in a professional setting.

Education

2023

ICEEM | Aurangabad

Bachelor of Engineering

Pursued a comprehensive Bachelor of Engineering degree with a specialization in Mechanical Engineering.

2019

Govt. Polytechnic | Hingoli

Diploma in Mechanical Engineering

Completed a Diploma in Mechanical Engineering in 2019.
