OBJECTIVE

As a skilled MERN stack developer, I specialize in building full-stack Progressive Web Applications and websites using React, Express.js, Node.js, and MongoDB. I have developed expertise in designing and implementing complex software solutions that meet the needs of a wide range of clients.

EXPERIENCE

2024

Web Developer

Codealpha

- Offers hands-on experience in real-world web development projects.
- Gain exposure to cutting-edge technologies and frameworks commonly used in web development.

EDUCATION

2024

Bachelor of Engineering

International center of excellence in engineering and MBA

PROJECTS

- **Resume Builder:**
Engineered an innovative Resume Builder web application with React frontend and Redux state management, streamlining the resume creation process for users and enhancing user experience.
- **WhiteBoardFusion:**
Engineered a high-performing web application using React for frontend and Node.js with Express for backend; integrated MongoDB database and Socket.IO for real-time communication, resulting in a 40% increase in user engagement metrics.
